# STAFF REPORT

Prepared for:	Montecito Fire Protection District Board of Directors
Prepared by:	Chief Hickman
Date:	January 22, 2018
Topic:	Audited Annual Financial Report for June 30, 2017

#### Summary

The following report provides a brief overview of the District's audited financial statements.

#### Discussion

The District has been working with independent audit firm, Fechter & Company ("Fechter"), and Craig Fechter has served as the partner on the audit. Mr. Fechter will provide a thorough review of the financials via phone conference at the Board meeting.

#### Management Report

This report consists of required communications for the Board of Directors. If deemed necessary, Fechter would also include comments on internal control weaknesses and suggestions for improvements, but there were no findings to that effect during this audit.

#### Independent Auditor's Report (Pg. 1)

In this report, Fechter communicates Management's responsibility for the financial statements, and communicates the Auditor's responsibility and the audit process. In the last paragraph, Fechter renders an unqualified opinion for the financial statements.

#### Management's Discussion and Analysis (Pg. 3-9)

The Management's Discussion and Analysis ("MD&A") section of the report is produced internally by Chief Hickman and Araceli Nahas. Fechter reviews the MD&A for accuracy, but the information is not part of the audit testing.

#### Balance Sheet (Pg. 10-11) and Statement of Activities (Pg. 12-13)

The starting figures for the financial statements are derived from the District's FIN accounting system and entries are posted to the "Adjustments" column to ensure that the final reporting numbers follow Generally Accepted Accounting Principles ("GAAP")

and statements issued by the Governmental Accounting Standards Board ("GASB"). Fechter and Araceli review all adjustments prior to posting.

# Notes to the Financial Statements (Pg. 14-32)

The notes are required to accompany the financial statements and provide details on significant financial transactions and adjustments.

### Conclusion

The Board has the option to:

- a. Accept and file the Annual Financial Report for June 30, 2017.
- b. Amend, modify or reject above option.

Introduction	1
Required Communications	2-5

Board of Directors of the Montecito Fire Protection District Santa Barbara, California

In planning and performing our audit of the financial statements of the Montecito Fire Protection District for the year ended June 30, 2017, we considered the District's internal control structure to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on the internal control structure.

Our consideration of internal control would not necessarily disclose all matters in the internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce, to a relatively low level, the risk that errors or irregularities in amounts that would be material in relation to the basic financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

We will review the status of these comments during our next audit engagement. We will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations. We thank the District's staff for its cooperation on this audit.

#### The Auditor's Responsibility under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter dated August 18, 2017, our responsibility, as described by professional standards, is to plan and perform our audit to obtain reasonable, but not absolute assurance that the financial statements are free of material misstatement and are fairly presented in accordance with U.S. generally accepted accounting principles. Because an audit is designed to provide reasonable, but not absolute assurance and because we did not perform a detailed examination of all transactions, there is a risk that material misstatements may exist and not be detected by us.

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting.

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit.

#### **Significant Accounting Policies**

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by the District are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year. We noted no transactions entered into by the District during the year that were both significant and unusual, and of which, under professional standards, we are required to inform you, or transactions for which there is a lack of authoritative guidance or consensus.

#### **Internal Control Related Matters**

In any smaller entity, whether private enterprise or a governmental agency, the lack of segregation of duties can present potential issues in regards to the perpetuation and concealment of fraud. Even with a perfect segregation of duties frauds can be perpetuated and concealed. The District can perform some specific control procedures to help reduce the risk of fraud, however. Some of the controls would include:

- Having someone independent of the bank reconciliation function review the bank statements on a monthly basis.
- Examining financial statements on a monthly basis at the management and department levels.
- Examining a budget to actual report on a frequent basis.

- Comparing the financial statements on a detailed level to the prior year on a frequent basis.
- Having someone independent of the payroll process review payroll on a bi-weekly basis, checking for accuracy of pay rates, paid time off recorded, etc.
- Verifying that a second person is approving all disbursement activity and that an individual independent of the accounting function is signing checks and asking questions about invoices presented for payment.
- Frequently displaying "professional skepticism" when considering staff responses on District finances.

California Government Code Section 12422.5 requires the State Controller's office to develop internal control guidelines applicable to each local agency by January 1, 2015. The intent of the legislation is to assist local agencies in establishing a system of internal control to safeguard assets and prevent and detect financial errors and fraud. To this end, the State Controller's Office has produced a draft of control guidelines for local Agencies. As the District contemplates changes to its system of internal control, we advise in utilizing these guidelines when developing internal procedures to assist with your internal control processes.

The State Controller's office has defined internal controls into five components that work together in an integrated framework. Their guidelines were adopted from the definitions and descriptions contained in *Internal Control – Integrated Framework*, published by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The components are:

- Control Environment
- Risk Assessment
- Control Activities
- Information and Communication
- Monitoring Activities

*Control environment* is the set of standards, processes, and structures that provided the basis for carrying out internal control across the entity. The governing board and management establish the "tone at the top" regarding the importance of internal control, including expected standards of conduct which then cascade down through the various levels of the organization and have a strong effect on the overall system of internal control.

A District's *Risk Assessment* process includes how management identifies risks (including fraud risk) relevant to the preparation and fair presentation of the financial statements in accordance with the District's applicable financial reporting framework. In addition, this would also involve areas of business and operational risk which could potentially affect the District's finances on a go-forward basis.

The District's risk assessment process is an extremely important activity the board and management should undertake. Every organization, public or private, faces business risks on a day to day basis. Identifying those risks and then acting on them in a timely manner may prevent future problems from becoming completely unmanageable.

Management should consistently attempt to identify risks that exist and then present those risks to the board for action. It is impossible for us to identify every potential risk that exists but either way; it is a responsibility of management and the board to proactively identify risks that could adversely affect the District's operations.

*Control Activities* are in reference to establishing policies and procedures that achieve management directives and respond to identified risks in the internal control system. These are specific procedures designed to perform a secondary review of internal processes that will allow for segregation of duties and a management level review of processed transactions.

*Information and Communication* are the District's methods of identifying what information is relevant to present to management and the board to assist the District in making the correct decisions. It also is in reference to the District's internal processes of gathering and summarizing that information.

*Monitoring* involves evaluating the effectiveness of controls on an on-going basis and taking remedial actions when necessary when identified by the other control procedures in place. On-going monitoring activities often are built into the normal recurring activities of a local government and include regular management and supervisory activities.

There is no catch-all for finding all instances of fraud within any entity, whether public or private. One of the key factors in helping prevent fraud is to encourage ethical behavior at all levels of the organization, i.e., "tone at the top". Another key would be to note instances of abnormal behavior of finance or accounting staff when questioned about District financial matters.

The District should remember that they have outside resources available in the case of fraud – they are able to contact the District auditor, their attorney, or the county auditor-controller should anyone feel there is a chance of fraud or abuse.

#### Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate(s) affecting the financial statements were:

- Accrual and disclosure of compensated absences
- Capital asset lives and depreciation expense
- Actuarial study to estimate the annual required contribution of pension plan
- Actuarial study to estimate annual required contribution for post-employment benefits
- Actuarial study to determine the net pension liability

#### **Audit Adjustments**

For purposes of this letter, professional standards define an audit adjustment as a proposed correction of the financial statements that, in our judgment, may not have been detected except through our auditing procedures. An audit adjustment may or may not indicate matters that could have a significant effect on the District's financial reporting process (that is, cause future financial statements to be materially misstated). The following audit adjustments, in our judgment, indicate matters that could have a significant effect on the District's financial reporting process:

- Posting of all GASB 34 entries on behalf of the District
- Posting of all GASB 68 entries on behalf of the District

#### **Disagreements with Management**

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

#### **Consultations with Other Independent Auditors**

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

#### **Issues Discussed Prior to Retention of Independent Auditors**

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the District's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

#### **Difficulties Encountered in Performing the Audit**

We encountered no significant difficulties in dealing with management in performing our audit.

# **INDEPENDENT AUDITOR'S REPORT**

To the Board of Directors of the Montecito Fire Protection District Santa Barbara, California

We have audited the accompanying financial statements of the governmental activities of each major fund of the Montecito Fire Protection District (the District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Montecito Fire Protection District as of June 30, 2017, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion & Analysis, post-employment benefits, budgetary comparison, and pension information on pages 3-9 and 33-36, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information or provide any assurance.

# MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

#### Management's Discussion and Analysis (Unaudited) June 30, 2017

The purpose of the Management's Discussion and Analysis (MD&A) is to provide an overview of the District's financial condition and to highlight important changes and activities with fiscal implications that occurred during the year ended June 30, 2017. Please read it in conjunction with the District's basic financial statements and required supplementary information, which follow this section.

#### **Discussion of Basic Financial Statements**

This discussion and analysis provides an introduction and a brief discussion of the District's basic financial statements, including the relationship of the statements to each other and the significant differences in the information they provide. Special purpose governments engaged in a single government program can combine the fund financial statements and the government-wide statements using a columnar format. This format reconciles individual line items of fund financial data to government-wide data in a separate column on the face of the financial statements rather than at the bottom of the statements or in an accompanying schedule.

The District's financial statements include three components:

- 1. Statement of Net Position and Governmental Funds Balance Sheet
- 2. Statement of Activities and Governmental Revenues, Expenditures, and Changes in Fund Balances
- 3. Notes to the Basic Financial Statements

The Statement of Net Position and Governmental Funds Balance Sheet provide the basis for evaluating the District's capital structure, liquidity, and financial flexibility. The Statement of Activities and Governmental Revenues, Expenditures, and Changes in Fund Balances presents information that shows how the District's fund balances and net position changed during the year. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when the cash is received or paid.

The Notes to the Basic Financial Statements provide a description of the accounting policies used to prepare the financial statements and present material disclosures required by generally accepted accounting principles that are not otherwise present in the financial statements. In addition to the basic financial statements, this report also presents other required supplementary information.

Total net position	\$ 12,642,561	\$ 14,781,174	\$ (2,138,613)	-14.5%

#### Table 1 – Montecito Fire Protection District Net Position

Total assets increased \$4,020,917, or 13.4%, when compared to the prior year. The change in current and other assets is primarily a result of an increase in cash and investments of \$1,470,000 and an increase to the deferred outflows of resources of \$2,759,000, along with decreases in the OPEB asset of \$158,400 and accounts receivable of \$44,000.

Total liabilities increased by \$6,159,530, or 40.6%. The change in liabilities is primarily a result of an increase to the net pension liability of over \$6.9 million, based on CalPERS' actuarial reports Additionally, the pension obligation bond is nearing final payment in 2018, and the current and long-term portions of the bond decreased a total of \$435,000 from the prior year. Accounts payable and salaries and benefits payable decreased by a total of \$450,000.

Net position over time is a useful indicator of a government's financial position. For Montecito Fire Protection District, assets exceed liabilities by \$12,642,561 at the close of the current fiscal year. The decrease of \$2,138,613, when compared to the prior year, is the amount by which fund expenditures exceed revenues in the current fiscal year (See Table 2 on page 5).

Unrestricted net position in the amount of \$2,783,089 is available to meet the District's ongoing obligations to citizens and creditors. Unrestricted net position decreased \$2,119,391 or 43.2%, when compared to the prior year.

Net Position – Ending	\$ 12,642,561	\$ 14,781,174	\$ (2,138,613)	-14.5%

The District's total revenues increased by \$1,116,944, or 6.4%, in the current fiscal year. The total increase is primarily attributed to the following factors:

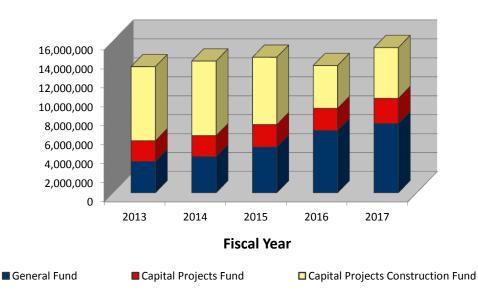

- Property tax revenue increased by \$959,505, or 6.2%, primarily due to property value appreciation and increased construction within the District.
- Intergovernmental revenue increased by \$133,780, or 7.3%, due to more reimbursable fire activity than in the prior year.
- The increase in miscellaneous revenue is primarily due to the receipt of an anonymous donation.
- The decrease in investment income is primarily due to fair value adjustments that are recorded by the County of Santa Barbara.

The District's total expenses increased by \$11,031,436, or 113.2%, in the current fiscal year. The total increase is due to a one-time payment of \$1,200,000 to set aside for the unfunded pension liability, and an overall change in the net pension liability from the prior year.

Management's Discussion and Analysis (Unaudited) June 30, 2017

#### **Analysis of Fund Balances of Individual Funds**

The chart below displays the fiscal year end (2013 to 2017) fund balances for the District's General Fund, Capital Projects Fund, and Capital Projects Construction Fund.

#### **Fund Balances – 5 Year Trend**

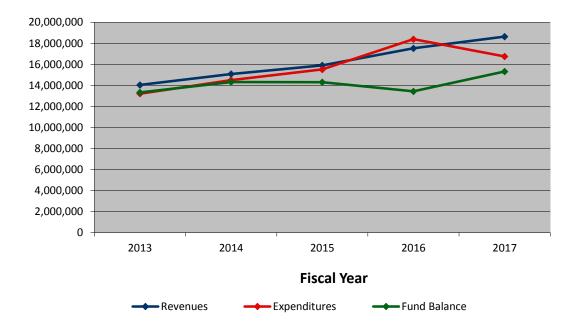

Total fund balance has increased steadily from fiscal year 2013 to 2017, with the exception of a slight General Fund decrease in 2016. The General Fund balance includes \$5,673,000 in Board-approved reserves. The Pension Obligation Fund (not included above) was established in the fiscal year ended 2012. The fund accounts for the accumulation of resources that are committed for the payment of principal and interest on the District's pension obligation bonds. The fund balance was \$208 and \$198 at June 30, 2017 and June 30, 2016, respectively.

#### Analysis of Revenues, Expenditures, and Fund Balance for Combined Governmental Funds

The following chart displays the District's revenues, expenditures, and ending "Memorandum Only" fund balance totals for the same five-year period. Since fiscal year ended 2013 through 2017, revenue has exceeded expenditures and fund balance has steadily increased, except in fiscal year 2016. The slight decrease in fund balance in the Capital Projects Construction Fund in 2016 is due to a transfer to the General Fund of over \$2.4 million. The funds were used to make an additional contribution to the District's PARS OPEB Trust. Approximately \$800,000 was transferred from the General Fund to the Capital Projects Construction Fund in 2017.

Over the last five years, revenue has steadily increased from \$13.2 million to 2013 to \$18.6 million in 2017. Total combined expenditures have increased each fiscal year, with a peak in 2016 when the District made contributions of over \$3.2 million to the PARS OPEB Trust account.

Management's Discussion and Analysis (Unaudited) June 30, 2017

#### **Revenues, Expenditures & Fund Balance - 5 Year Trend**

#### Analysis of Significant Variations Between Original and Final Budget and Actual Results for the General Fund

The Board of Directors adopted the District's 2016-17 fiscal year operating budget in September of 2016 on a modified accrual basis. As adopted for the General Fund, budgeted revenues totaled \$16,955,330, while projected expenditures totaled \$15,377,815. Operating transfers to the Capital Projects Fund and Pension Obligation Fund totaled \$1,642,000.

The District formally amended its originally adopted budget in June of 2017. As amended for the General Fund, revised budgeted revenues increased by \$1,200,000 to \$18,155,330 while projected expenditures increased by \$1,200,000 to \$16,577,815, and operating transfers remained unchanged. The revised budget had no net effect on fund balance due to the increase in budgeted revenues matching the increase in budgeted expenditures.

Actual revenues for the year were \$455,990 higher and actual expenditures were \$346,829 lower than the final amended budget on a modified accrual basis. Refer to the required supplementary information on page 33 for the Budget Comparison Schedule.

#### Long-Term Debt

In May of 2011, the District authorized the issuance and sale of Taxable Pension Obligation Bonds (POB) with a principal amount of \$3,520,000. Proceeds of the sale were used to extinguish an existing "side fund" pension obligation with California Public Employees Retirement System (CalPERS). The bonds were issued at a 4.52% interest rate on the basis of a 360-day year over a seven-year period terminating on May 26, 2018. The District made bond principal payments totaling \$435,000 and interest payments totaling \$17,402 during the year ended June 30, 2017. The total outstanding debt at June 30, 2017 was \$145,008.

The deferred bond issuance charges are being amortized over the life of the debt. There were no charges recorded in the prior year.

# NOTES TO THE BASIC FINANCIAL STATEMENTS

Notes to the Financial Statements June 30, 2017

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Reporting Entity**

The Montecito Fire Protection District (the District) is an independent division of local government, authorized by California Health and Safety Code Sections 13800-13970. The District is governed by a five member Board of Directors elected to serve four year terms. These financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. There are no component units included in this report that meet the criteria of a blended or discretely presented component unit as set forth by the Governmental Accounting Standards Board (GASB), which is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

# <u>Government-Wide – Basis of Presentation, Measurement Focus, and Basis of Accounting</u>

GASB Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments* (GASB 34), was issued to improve governmental financial reporting for citizens, district representatives, and creditors involved in the lending process. GASB 34 requires that a government entity present in its basic external financial statements both government-wide financial statements and fund financial statements, excluding fiduciary funds. Governments engaged in a single government program may combine their fund financial statement with their government-wide statements by using a columnar format that reconciles individual line items of fund financial data to government-wide data in a separate column.

GAAP requires that the government-wide financial statements be reported using the economic resources measurement focus and the accrual basis of accounting. In comparison, governmental funds employ the current financial resources measurement focus and the modified accrual basis of accounting. The economic resources measurement focus aims to report all inflows, outflows, and balances affecting or reflecting an entity's net position. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when incurred for activities related to exchange and exchange-like activities. In addition, long-lived assets (such as buildings and equipment) are capitalized and depreciated over their estimated economic lives.

#### Funds – Basis of Presentation, Measurement Focus, and Basis of Accounting

The accounts of the District are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements. The District uses the governmental fund category.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

# <u>Funds – Basis of Presentation, Measurement Focus, and Basis of Accounting</u> - continued

**Governmental Funds** are used to account for the District's general government activities. Governmental funds use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e. when they are "measurable and available"). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers all revenues available if they are collected within 60 days after fiscal year-end. Expenditures are recorded when the related fund liability is incurred, except for certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Property taxes and interest associated with the current fiscal year are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal year. Other receipts and taxes are determined to be both measurable and available when cash is received by the District and are recognized as revenue at that time.

Secured property taxes are levied in September of each year based upon the assessed valuation as of the previous January 1 (lien date). They are payable in two equal installments due on November 1 and February 1, and are considered delinquent with penalties after December 10 and April 10, respectively.

Unsecured property taxes are due on the January 1 lien date and become delinquent with penalties after August 31. All property taxes are billed and collected by the County of Santa Barbara (the County) and remitted to the District.

The District maintains the following governmental fund types:

The *General Fund* is the District's operating fund. It accounts for all the financial resources and the legally authorized activities of the District except those required to be accounted for in another fund.

The *Pension Obligation Fund* accounts for the accumulation of resources that are committed for the payment of principal and interest on the District's pension obligation bonds (Note 5).

The *Capital Projects Fund* accounts for the acquisition of capital assets not being financed by the General Fund.

Notes to the Financial Statements June 30, 2017

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

# <u>Funds – Basis of Presentation, Measurement Focus, and Basis of Accounting</u> - continued

The *Capital Projects Construction Fund* accounts for the construction of major capital projects not being financed by the General Fund, such as the acquisition of land for the development of a new fire station.

#### Investments

The District maintains substantially all its cash in the Santa Barbara County Treasurer's cash management investment pool (the pool).

State statutes and the County's investment policy authorize the County Treasurer to invest in U.S. Treasury and U.S. Government agency securities; state and/or local agency bonds, notes, warrants, or certificates of indebtedness; bankers' acceptances; commercial paper; corporate bonds and notes; negotiable certificates of deposit; repurchase agreements; reverse repurchase agreements; securities lending; bank deposits; money market mutual funds; State of California Local Agency Investment Fund (LAIF); and the investment pools managed by a Joint Powers Authority. Interest earned on pooled investments is apportioned quarterly into participating funds based upon each fund's average daily deposit balance. Any investment gains or losses are proportionately shared by all funds in the pool.

Investments held by the County Treasurer are stated at fair value. The fair value of pooled investments is determined quarterly and is based on current market prices received from the securities custodian. The fair value of participants' position in the pool is the same as the value of the pool shares. The method used to determine the value of participants' equity withdrawn is based on the book value of the participants' percentage participation at the date of such withdrawal.

The pool's disclosures related to cash and investments, including those disclosures regarding custodial credit risk, are included in the County's Comprehensive Annual Financial Report. A copy may be obtained online from the Auditor-Controller section of the County's website.

#### **Receivables**

Receivables are recorded in the District's Statement of Net Position and Governmental Funds Balance Sheet net of any allowance for uncollectible. All receivables are deemed to be collectible at June 30, 2017, and, as such, the District has no allowance for uncollectible accounts for these receivables.

### Notes to the Financial Statements June 30, 2017

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

#### **Capital Assets**

Capital assets are recorded in the District's Statement of Net Position and Governmental Funds Balance Sheet in the Statement of Net Position column at cost if purchased or constructed. Donated capital assets are recorded at the estimated fair market value at the date of donation. The costs of normal maintenance that do not add to the value of the asset or materially extend assets' lives are expensed as incurred. The District's capitalization threshold is \$5,000. Capital assets are depreciated at cost using the straight-line method over the following estimated useful lives:

•	Small equipment, medium equipment, and computers	5 years
•	Vehicles, trucks, and large equipment	10 years
•	Fire trucks, buildings, and land improvements	20 years
•	Buildings	50 years

#### **Compensated Absences**

The District's policy permits employees to accumulate earned but unused holiday and vacation leave benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the District. All vacation pay and holiday pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements prior to year-end and paid by the District subsequent to year-end.

#### **Deferred Compensation Plan**

The District offers a deferred compensation plan to its employees. The District has adopted provisions of GASB Statement No. 32, *Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans* (GASB 32), which establishes financial accounting and reporting standards based on current amendments to the provisions of Internal Revenue Code (IRC) Section 457. Under IRC 457, plan assets are not owned by the governmental entity, and as a result, governmental entities are required to remove plan assets and plan liabilities from their financial statements.

The District has no administrative involvement, does not perform the investing function, and has no fiduciary accountability for the plan. Thus, in accordance with GASB 32, the plan assets and any related liability to plan participants have been excluded from the District's financial statements.

Notes to the Financial Statements June 30, 2017

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

#### **Other Post Employment Benefits**

GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions (GASB 45), addresses how governmental entities should account for and report their costs and obligations related to postemployment benefits, or OPEB. The District offers postretirement medical, dental, and vision benefits. The statement generally requires that employers account for and report the annual cost of OPEB and the outstanding obligations and commitments related to OPEB in essentially the same manner as they currently do for pensions. Annual OPEB cost for most employers will be based on actuarially determined amounts that, if paid on an ongoing basis, generally would provide sufficient resources to pay benefits as they come due. The District has implemented the requirements of GASB 45 on a prospective basis.

GASB 45 also establishes disclosure requirements for information about the plans in which an employer participates, the funding policy followed, the actuarial valuation process and assumptions, and, for certain employers, the extent to which the plan has been funded over time.

#### Fund Equity

In February 2009, the GASB issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes accounting and financial reporting standards for all governments that report governmental funds.

Under GASB 54, fund balance for governmental funds should be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are now broken out in five categories:

- *Nonspendable fund balance* amounts that cannot be spent because they are either (a) not spendable in form or (b) legally or contractually required to be maintained intact.
- Committed fund balance amounts that can only be used for specific purposes determined by formal action of the District's highest level of decision-making authority and that remain binding unless removed in the same manner. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.
- *Restricted fund balance* This fund balance classification should be reported when there are constraints placed on the use of resources externally (by creditors, grant sources, contributors, etc.) or imposed by law or enabling legislation.

Notes to the Financial Statements June 30, 2017

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

#### **Fund Equity** - continued

- Assigned fund balance amounts that are constrained by the District's intent to be used for specific purposes. The intent can be established at either the highest level of decision-making or by a body or an official designated for that purpose. This is also the classification for residual funds in the District's debt service, special revenue, and capital projects funds.
- Unassigned fund balance the residual classification for the District's General Fund that includes amounts not contained in the other classifications. In other funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

The District's Board establishes, modifies, or rescinds fund balance commitments and assignments by passage of an ordinance or resolution. This is done through adoption of the budget and subsequent budget amendments that occur throughout the year. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted fund balance resources first, then unrestricted resources as they are needed. When committed, assigned, or unassigned resources are available for use in the governmental fund financial statements, the District considers committed amounts to be used first, then assigned amounts, and then unassigned amounts.

#### <u>Memorandum Only – Total Columns</u>

Total columns in the Statement of Net Position and Governmental Funds Balance Sheet and the Statement of Activities and Governmental Fund Revenues, Expenditures, and Changes in Fund Balances are captioned as "Memorandum Only," as they do not represent consolidated financial information and are presented only to facilitate financial analysis. The columns do not present information that reflects the financial position or results of operations of the District in conformity with GAAP. Such data is not comparable to a consolidation, as interfund eliminations have not been made in the aggregation of this data.

#### Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Notes to the Financial Statements June 30, 2017

#### NOTE 2: CASH AND INVESTMENTS

#### **Investment in the Santa Barbara County Investment Pool**

The District is a voluntary participant in the Santa Barbara County Treasurer's investment pool that is regulated by California Government Code under the oversight of the Treasurer of the State of California. The balance available for withdrawal is based on the accounting records maintained by the County Treasurer. As of June 30, 2017, the District had cash on deposit with the County Treasurer in the amount of \$15,059,319.

#### **Investments Authorized by District Policy**

The District has not formally adopted a deposit and investment policy that limits the government's allowable deposits or investment and addresses the specific types of risk to which the government is exposed.

#### **Interest Rate Risk**

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. At fiscal year end, the weighted average days to maturity of the investments contained in the County investment pool was approximately 705 days.

#### Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating firm. The Santa Barbara County Treasurer's investment pool is not rated.

#### Custodial Credit Risk

Custodial credit risk does not apply to a local government's indirect investment in deposits and securities through the use of government investment pools (such as the Santa Barbara County Treasurer's investment pool).

The liability for employee compensated absences is liquidated by the General Fund.

#### NOTE 5: PENSION OBLIGATION BONDS

In May of 2011, the District authorized the issuance and sale of Taxable Pension Obligation Bonds (POB) with a principal amount of \$3,520,000. Proceeds of the sale were used to extinguish an existing "side fund" pension obligation with California Public Employees Retirement System (CalPERS). The bonds were issued at a 4.52% interest rate on the basis of a 360-day year over a seven year period terminating on

During the fiscal year ended June 30, 2017, the District made the following transfers:

A transfer of \$455,362 from the General Fund to the Pension Obligation Fund to finance the principal and interest payments for the District's Pension Obligation Bonds.

A transfer of \$1,186,000 from the General Fund to the capital outlay funds to finance fixed asset purchases.

#### NOTE 7: RISK MANAGEMENT

The District is a participant in a public entity risk pool with the Fire Agencies Insurance Risk Authority (FAIRA). FAIRA is organized pursuant to the provisions of the California Government Code Section 6500 et seq. for the purpose of providing an effective risk management program to local governments by reducing the amount and frequency of losses, pooling self-insured losses, and jointly purchasing excess insurance and administrative services in connection with a joint protection program.

Notes to the Financial Statements June 30, 2017

#### NOTE 7: RISK MANAGEMENT - continued

The District pays an annual premium to the pool for its excess general liability insurance coverage. The agreement for information of FAIRA provides that the pool will be self-sustaining through member premiums.

FAIRA provides the District with insurance-like benefits for general liability and excess liability coverage, automobile claims, management liability coverage, and property coverage for buildings, contents, and crime. During the fiscal year, the District contributed an annual premium of \$25,662 with limits ranging from \$1,000,000 to \$2,000,000 for each liability, and excess liability coverage of \$10,000,000. The insurance coverage in excess of the \$1,000,000, up to \$10,000,000, is provided by the Argonaut Insurance Company.

#### **NOTE 8: RETIREMENT PLAN**

#### **Plan Description**

The District contributes to the Public Agency portion of the California Public Employees Retirement System (CalPERS), an agent multiple-employer public employee defined benefit pension plan. CalPERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. Benefit provisions and all other requirements are established by State statute and city ordinance. Copies of CalPERS' annual financial report may be obtained from its Executive Office at 400 P Street, Sacramento, CA 95814.

All full-time and less than full-time District employees that meet the CalPERS membership eligibility requirements can participate in CalPERS. Retirement benefits vest after five years of service with the District. Vested District safety members who retire at, or after, age 50 are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to years of credited service multiplied by their highest twelve month period of earnings multiplied by a percentage factor ranging from 2.4% to 3.0%, depending upon age at retirement. Vested District miscellaneous members who retire at, or after, age 50 are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to years of credited service multiplied by their highest twelve month period earnings multiplied by a percentage factor ranging from 2.0% to 3.0%, depending upon age at retirement. CalPERS also provides death and disability benefits.

On January 1, 2013, the Public Employee Pension Reform Act of 2013 (PEPRA) became effective, which made numerous changes to public pension provisions for agencies contracting with CalPERS. A new tier level was created for new public agency employees, which includes a different retirement benefit formula as well as different employer and member contribution rates as compared to current public agency employees.

Notes to the Financial Statements June 30, 2017

# NOTE 8: RETIREMENT PLAN - continued

# **<u>Plan Description</u>** - continued

CalPERS issues a separate comprehensive annual financial report, copies of which may be obtained from the CalPERS webpage at *www.calpers.ca.gov*.

# **Funding Policy**

The employee contribution level for District miscellaneous members and District safety members is 8% and 9%, respectively, of annual salary. The District makes contributions for the entire amounts required of the employees on their behalf. The District is required to contribute an actuarially determined employer rate. The contribution requirements of plan members are based upon the benefit level adopted by the District's Board. The employer contribution rate is established annually and may be amended by CalPERS.

The employer contribution rates of annual covered payroll are as follows:

Tier	Safety	Non-Safety
Tier 1	19.334%	14.881%
PEPRA	12.821%	6.93%

In addition the District also makes unfunded liability payments annually to help make up for the shortfall in the pension plan. This is also actuarially determined. The following represents the unfunded liability payments made during the 2017 fiscal year:

Tier	Safety	Non-Safety
Tier 1	\$ 607,569	\$ 79,647
PEPRA	268	17

# **Funding Policy**

At June 30, 2017, the District reported a liability of \$18,462,053 in the Statement of Net Position for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all Pension Plan participants, which was actuarially determined.

For the fiscal year ended June 30, 2017, the District recognized pension expense of \$4,224,870 in its Government-Wide financial statements. Pension expense represents the change in the net pension liability during the measurement period, adjusted for actual contributions and the deferred recognition of changes in investment gain/loss, actuarial gain/loss, actuarial assumptions or method, and plan benefits.

Notes to the Financial Statements June 30, 2017

#### NOTE 8: RETIREMENT PLAN – continued

#### **Actuarial Assumptions**

The total pension liability in the June 30, 2016 actuarial valuation was determined using the following actuarial assumptions; total pension liability represents the portion of the actuarial present value of projected benefit payments attributable to past periods of service for current and inactive employees:

- Discount Rate/Rate of Return 7.5%, net of investment expense
- Inflation Rate 2.75%
- Salary increases Varies by Entry Age and Service
- COLA Increases up to 2.75%
- Post-Retirement Mortality Derived using CalPERS' Membership Data for all Funds

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2012 through June 30, 2015.

The long-term expected rate of return on pension plan investments (7.5%) was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-Term Expected
Asset Class	Target Allocation	Real Rate of Return
Global Equity	47.0%	5.71%
Global Fixed Income	19.0%	2.43%
Inflation Sensitive	6.0%	3.36%
Private Equity	12.0%	6.95%
Real Estate	11.0%	5.13%
Infrastructure and Forestland	3.0%	5.09%
Liquidity	2.0%	(1.05)%

The discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from the District will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension fund's fiduciary net position was projected to be available

Notes to the Financial Statements June 30, 2017

#### NOTE 8: RETIREMENT PLAN - continued

#### Actuarial Assumptions - (continued)

to make all projected future benefit payments of current active and inactive employees. In theory, the discount rate may differ from the long-term expected rate of return discussed previously. However, based on the projected availability of the pension fund's fiduciary net position, the discount rate is equal to the long-term expected rate of return on pension plan investments, and was applied to all periods of projected benefit payments to determine the total pension liability.

#### <u>Sensitivity of the District's Proportionate Share of the Net Pension Liability to</u> <u>Changes in the Discount Rate</u>

The following presents what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.5%) or 1 percentage point higher (8.5%) than the current rate:

	19			scount Rate 7.5%	19	% Increase 8.5%
District's proportionate share of the net						
pension plan liability	\$	29,199,438	\$	18,462,053	\$	9,641,347

Detailed information about the pension fund's fiduciary net position is available in the separately issued CalPERS comprehensive annual financial report, which may be obtained by contacting CalPERS.

#### NOTE 9: OTHER POST EMPLOYMENT BENEFITS (OPEB)

#### **Plan Description**

The District provides retiree healthcare benefits for employees who retire with CalPERS pension benefits immediately upon termination of employment from the District. The District contracts with CalPERS for this insured-benefit plan, an agent multiple-employer post-employment healthcare plan, established under the State of California's Public Employees' Medical and Hospital Care Act (PEMHCA). The plan's medical benefits and premium rates are established by CalPERS and the insurance providers. The District pays for medical, dental, and vision premiums for the lifetime of the retiree and their eligible dependents. The District pays 100% of the retiree medical premiums, up to a maximum of \$1,950 per month for 2017, and 100% of the premiums for retiree dental and vision coverage. CalPERS issues a separate comprehensive annual financial report, copies of which may be obtained from the CalPERS webpage *www.calpers.ca.gov.* 

Notes to the Financial Statements June 30, 2017

#### NOTE 9: OTHER POST EMPLOYMENT BENEFITS (OPEB) – continued

#### <u>Plan Description</u> - (continued)

The District participates in the Public Agency Retirement System (PARS) Public Agencies Post-Retirement Health Care Plan Trust Program (PARS Trust), a single employer irrevocable trust established to fund other postemployment benefits. The PARS Trust is approved by the Internal Revenue Code Section 115 and invests funds in equity, bond, and money market mutual funds. The Fire Chief or designee is the District's Plan Administrator. Copies of PARS Trust annual financial report may be obtained from PARS at 4350 Von Karman Avenue, Suite 100, Newport Beach, CA 92660.

#### **Funding Policy**

The contributions to the OPEB plan are based on pay-as-you-go financing requirements, with an additional amount contributed to the PARS Trust to prefund benefits from time to time at the sole discretion of the Board. Retiree health benefits may be paid out of the PARS Trust, set up for this purpose, to the extent funded. The purpose of this funding policy is to manage the District's OPEB obligations while at the same time maintaining as much flexibility as possible to adjust for changing budgetary considerations. For the fiscal year ended June 30, 2017, the District contributed \$689,462 to the plan. GASB 45 requires recognition of the current expense of OPEB based on the annual required contribution (ARC), but does not require funding of the related liability.

#### Annual OPEB Cost and Net OPEB Obligation (Asset)

The District's annual OPEB cost is calculated based on the ARC of the District, an amount actuarially determined in accordance with the parameters of GASB 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial accrued liabilities (UAAL) over a period not to exceed thirty years. For the fiscal year ended June 30, 2017, the OPEB ARC was \$847,815. This includes the normal cost of \$341,290 for the year for current active employees, and \$637,217 for UAAL amortization. The District's OPEB contribution for the fiscal year ended June 30, 2017 was \$3,721,111. The following are the components of the District's OPEB cost for the fiscal year ended June 30, 2017:

Annual required contribution (ARC)	\$ 801,539
Interest on Net OPEB obligation	(259,808)
Amortization adjustment to ARC	306,084
Annual OPEB cost 2016-17	 847,815
Contributions made	(689,462)
Increase in net OPEB asset	158,353
Net OPEB liability (asset) - beginning of year	(3,997,047)
Net OPEB liability (asset) - end of year	\$ (3,838,694)

Notes to the Financial Statements June 30, 2017

#### NOTE 9: OTHER POST EMPLOYMENT BENEFITS (OPEB) - continued

#### Annual OPEB Cost and Net OPEB Obligation (Asset) - continued

The District's annual OPEB cost, the percentage of annual OPEB cost contribution to the OPEB plan, and the net OPEB obligation (asset), for the current year and two preceding years, are as follows:

Fiscal Year Ended	Annual OPEB Cost	% of Annual OPEB Cost Contributed	Net OPEB Obligation (Asset)
June 30, 2015	978,507	202%	(1,269,136)
June 30, 2016	978,507	380%	(3,997,047)
June 30, 2017	847,815	81%	(3,838,694)

#### **Funding Status and Funding Progress**

Using the most recent actuarial valuation dated July 1, 2016, the following is the funded status of the OPEB plan:

Annual accrued liability (AAL)	\$ 11,969,224
Actuarial value of plan assets	9,848,467
Unfunded actuarial accrued liability (UAAL)	\$ 2,120,757
Funded ratio (actuarial value of plan assets/AAL)	 82.28%

Activity in the District's PARS Trust account since the most recent valuation, which will be reflected in the actuarial value of plan assets as of the next July 1, 2016 valuation date, is as follows:

Fiscal Year Ended	Beginning Balance	C	ontributions		Net Earnings	Distr	ibutions		Ending Balance
6/30/2015 6/30/2016 6/30/2017	\$ 4,217,056 \$ 5,946,090 \$ 9,247,386	\$ \$ \$	1,610,136 3,293,912	\$ \$ \$	118,898 7,384 1,067,165	\$ \$ \$	- - -	\$ \$ \$	5,946,090 9,247,386 10,314,551

Actuarial valuations of an ongoing OPEB plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare trend. Amounts determined regarding the funded status of the OPEB plan and the ARC of the employer are subject to continual revision as actual results are compared

with past expectations and new estimates are made about the future. The Schedule of Funding Progress is presented as required supplementary information following the Notes to the Financial Statements. This schedule presents multiyear trend information that shows whether the actuarial value of the plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

#### Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation; as well as the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2016 actuarial valuation, the Entry Age Actuarial Cost Method was used. The actuarial assumptions included a 6.5% investment rate of return and separate annual healthcare cost trend rates for medical, dental, and vision. The medical cost trend rate starts at 6% in 2016 and declines to 5% in 2017. The vision and dental trend rates are both a flat 4%. The OPEB Plan's UAAL is being amortized as a level dollar amount on an open period basis. The remaining amortization period at July 1, 2016 was 30 years.

#### NOTE 10: WORKFORCE HOUSING

The District had a Housing Committee that researched methods which allow employees to live closer to the District in order to facilitate responses to emergencies. The District approved a plan in the fiscal year ended June 30, 2006 to purchase Workforce Housing and completed the purchase of a parcel consisting of three residences of varying sizes at East Valley Road. The three residences are currently leased and occupied by three employees of the District. The District has contracted with a property management company to manage the operational activity of the residences. The Housing Committee developed a policy to govern all matters related to the Workforce Housing Program that was adopted by the Board.

Notes to the Financial Statements June 30, 2017

#### NOTE 11: DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES

Pursuant to GASB Statement No. 63, the District recognized deferred outflows of resources in the government-wide and proprietary fund statements. These items are a consumption of net position by the District that is applicable to a future reporting period. The District has one item that is reportable on the Government-Wide Statement of Net Position as Deferred Outflows of Resources which is related to pensions that are the CalPERS premiums for the 2017 fiscal year which will be recognized in a subsequent reporting period. The total for this is \$934,063. These were the employer contributions for the 2017 fiscal year.

The District is also reporting deferred outflows of resources relating to differences between projected and actual investment earnings, change in employer proportions and differences between the employer's contributions and their proportionate share of contributions. The total of these amounts at year-end were \$3,879,585 and they will be amortized over a 3.8 year period.

The District also recognized deferral inflows of resources in the government-wide financial statements. These are related to differences between expected and actual experience, changes of assumptions, and differences between employer's contributions and the District's proportionate share of contributions. This amount totaled \$1,264,037 and will be amortized over a 3.8 year period.

Under the modified accrual basis of accounting, it is not enough that revenue is earned; it must also be available to finance expenditures of the current period. Governmental funds will therefore include deferred inflows of resources for amounts that have been earned but are not available to finance expenditures in the current period. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Amount			
2018	\$ 304,599			
2019	369,250			
2020	1,309,911			
2021	631,788			
Total	\$ 2,615,548			

Notes to the Financial Statements June 30, 2017

# NOTE 12: EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUNDS BALANCE SHEETS AND STATEMENT OF NET POSITION

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets used in Governmental Activities are not financial resources and, therefore; are not reported in the funds.	\$	9,859,472
Certain long-term assets, such as the over-funding of the Other Post-Employment Benefits liability and the deferred outflows of resources, create long-term assets.		8,652,342
Long-term liabilities, including compensated absences and loans payable are not due and payable in the curren period and, therefore; are not reported in the funds.	t	(1,510,383)
Other long-term liabilities, such as the net pension liability and deferred inflows of resources, are not due and payable in the current period and, therefore; are not reported in the funds.		(19,726,090)
Combined Adjustment	\$	(2,724,659)
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. The difference is the amount by which depreciation exceeded capital outlays in the current period.	\$	(19,221)
Repayments of long-term debt are recorded as an expense in the fund financial statements and are adjusted against debt in the statement of net position as an offset to the liability.		444,975
Changes in the compensated absences, net pension liability, and OPEB liabilities are expenditures in the governmental funds, but the repayment reduces long- term liabilities in the statement of net position.		(4,453,225)
Combined Adjustment	\$	(4,027,471)

# NOTE 13: COMMITMENTS AND CONTINGENCIES

#### **Litigation**

The District is subject to litigation related to employee matters that are incidental to the ordinary course of the District's operations. There is presently no outstanding litigation.

#### **Grant Revenues**

The District recognizes as revenues grant monies earned for costs incurred in certain Federal and State programs the District participates in. The program may be subject to financial and compliance audits by the reimbursing agency. The amount, if any, of the expenditures which may be disallowed by the granting agency cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

Notes to the Budgetary Comparison Schedules Required Supplementary Information (Unaudited) June 30, 2017

#### NOTE 1: BUDGETARY AND LEGAL COMPLIANCE

In accordance with California Health and Safety Code Section 13895, on or before October 1, the District must submit a board approved budget to the County Auditor. Annual budgets are adopted for the District's General, Capital Projects, and Capital Projects Construction Funds. Budgets are prepared on the modified accrual basis of accounting consistent with GAAP. Annually, the Board of Directors conducts a public hearing for the discussion of proposed budgets. At the conclusion of the hearing, the Board adopts the final budgets. All appropriations lapse at fiscal year-end and are subject to re-appropriation as part of the following year's budget. The legal level of budgetary control (the level on which expenditures may not legally exceed appropriations) is maintained at the object level. Any changes in the annual budget must be changed by a vote of the Board. The Board amended the originally adopted General Fund budget in June of 2017.

RESOLUTION OF THE BOARD OF DIRECTORS OF THE MONTECITO FIRE PROTECTION DISTRICT PURSUANT TO SECTION 12001 OF THE ELECTIONS CODE ORDERING, CALLING, PROVIDING FOR AND GIVING NOTICE OF A SPECIAL ELECTION TO BE HELD IN THE MONTECITO FIRE PROTECTION DISTRICT ON JULY 24, 2018 FOR THE PURPOSE OF SUBMITTING TO THE VOTERS OF SAID DISTRICT A PROPOSITION PURSUANT TO ARTICLE XIII B OF THE CONSTITUTION OF THE STATE OF CALIFORNIA TO RETAIN THE DISTRICT'S INCREASED LIMITS OF APPROPRIATIONS

WHEREAS, the Board of Directors deems and determines it is necessary and hereby proposes that the Montecito Fire Protection District be authorized to retain its increased limits of appropriations pursuant to Article XIII B of the Constitution of the State of California;

NOW, THEREFORE, the Board of Directors of the Montecito Fire Protection District does hereby resolve, determine and order as follows:

Section 1. Pursuant to Article XIII B of the Constitution of the State of California and the laws of the State of California, a special election shall be held in the Montecito Fire Protection District on the 24th day of July 2018, for the purpose of submitting to the qualified voters of said District a proposition which, if approved by a majority of the voters voting at said election, will authorize and allow this District to retain its increased limits of appropriations.

<u>Section 2</u>. That on the ballots to be used in said election, in addition to any other matters required by law, there shall be printed substantially the following:

RETENTION OF INCREASED LIMITS OF APPROPRIATION FOR PURPOSES OF FURNISHING FIRE PROTECTION, RESCUE AND EMERGENCY MEDICAL SERVICES

Reg Pg. 86

Shall the limits of appropriations for the Montecito Fire Protection District be established pursuant to Article XIII B of the Constitution of the State of California (Proposition 4 and Proposition 111) at an amount the total of which equals the combined total of all of the following: (1) the amount of all ad valorem taxes on property to which the District is entitled as limited by Article XIII A of the Constitution of the State of California (Proposition 13) and any legislation supplemental thereto; (2) the amount of any fire suppression services assessment, capital improvement assessments, or other benefit assessments which may be authorized by the District pursuant to and in conformance with the procedures and authority set forth in State law and which would otherwise be considered "proceeds of taxes" pursuant to Article XIII B of the Constitution of the State of California; (3) the amount of the proceeds from any special taxes which may be authorized by more than two-thirds of the District voters at any election that may be called by the District for that purpose; (4) any interest received by the District; and (5) any subventions or other aid received from the State of California, the County of Santa Barbara or other governmental agency?

If said limit is approved by the voters, it shall be effective for the District's 2018-2019 fiscal year and remain in effect for a period of four years from and after the date of this election unless changed by the voters at a subsequent election or elections.

<u>Section 3</u>. Pursuant to Election Code Section 13247, the abbreviated statement of the proposition (measure) shall be as follows:

Shall the Montecito Fire Protection District retain its increased limits on appropriations to assure continued fire protection, rescue and emergency medical services?

### STAFF REPORT

Prepared for:	Montecito Fire Protection District Board of Directors
Prepared by:	Chief Hickman
Date:	January 22, 2018
Торіс:	Establishing Appropriations for FY 2016-17 and Prior Years

### Summary

Since last July, Staff has been working with former Auditor-Controller, Bob Geis, to recalculate the District's appropriations limit by taking into consideration other factors that are allowable by law, but were not previously considered by the District.

### Discussion

California voters, in November of 1979 passed Proposition 4, which added Article XIIIB to the State Constitution. This article establishes limits on the appropriation of proceeds of taxes. In June of 1990, the voters passed Proposition 111, which updates the State's and local agencies' appropriation limit calculation to allow for new funding, while still providing an overall limit on state and local funding.

Prior to the passage of Proposition 111, the limit was based on the 1978-79 proceeds of taxes adjusted annually for population and cost of living changes. Proposition 111 established new cost of living factors and new population factors for use by local governments.

**Cost of Living:** Local governments may annually choose, by a recorded vote of the governing body, either:

- The change in California per capita personal income, or
- The percentage change in the jurisdiction's assessed valuation attributable to non-residential new construction.

**Population:** Since Montecito Fire's jurisdiction is located in the unincorporated area of the County, use either:

- The change for the County, or
- The change for the unincorporated area of the County.

In working with Mr. Geis, we learned that the District did not always calculate the annual limit by taking into consideration all the options, since data required to calculate the change in non-residential new construction was not always readily available and is calculated by the County Assessor's Office.

In order to determine if there was an opportunity to take advantage of these other factors, Araceli and Mr. Geis worked closely with the Assessor's Office to collect all the data and make revisions to prior years, to bring the cumulative limit calculations forward. In the following fiscal years, the non-residential new construction factor was larger than the California Personal Income factor: 1992-93, 1998-99, 2002-03, 2003-04, 2009-10, 2011-12, 2012-13, and 2014-15.

Additionally it was noted that the District did not start selecting the unincorporated factor until the 2007-08 fiscal year, even though Proposition 111 allowed for that starting in 1990. The unincorporated factor was larger than the County in the following fiscal years: 1993-94, 1995-96, 1997-98, 1998-99, 1999-2000, 2000-01, and 2006-07, and therefore used to recalculate the appropriations limit.

### Conclusion

Staff is submitting to the Board of Directors a report and resolution for FY 2016-17 for the Montecito Fire Protection District that selects:

- The change in the in the California per capita personal income of 1.0537, and
- The change in the unincorporated area for the Population factor of 1.0102.
- This results in an increase in the appropriation limit by a factor of 1.06445 to \$11,056,223.

The Board has the option to:

- a. Accept the report of the Proposition 4/111 Appropriation Limits as shown in Exhibits I for FY 2016-17, Exhibit II for 1991-92 to 2016-17 and Resolution 2018-09.
- b. Amend, modify or reject the above option.

EXHIBIT III

EDMUND G. BROWN JR. - GOVERNOR

STATE CAPITOL ■ ROOM 1145 ■ SACRAMENTO CA ■ 95814-4998 ■ WWW.DOF.CA.GOV

May 2016

Dear Fiscal Officer:

### Subject: Price Factor and Population Information

### Appropriations Limit

The California Revenue and Taxation Code, section 2227, requires the Department of Finance (Finance) to transmit an estimate of the percentage change in population to local governments. Each local jurisdiction must use their percentage change in population factor for January 1, 2016, in conjunction with a change in the cost of living, or price factor, to calculate their appropriations limit for fiscal year 2016-17. Attachment A provides the change in California's per capita personal income and an example for utilizing the price factor and population percentage change factor to calculate the 2016-17 appropriations limit. Attachment B provides the city and unincorporated county population percentage change. Attachment C provides the population percentage change for counties and their summed incorporated areas. The population percentage change data excludes federal and state institutionalized populations and military populations.

### **Population Percent Change for Special Districts**

Some special districts must establish an annual appropriations limit. The Revenue and Taxation Code, section 2228 provides additional information regarding the appropriations limit. Article XIII B, section 9(C) of the California Constitution exempts certain special districts from the appropriations limit calculation mandate. The Code and the California Constitution can be accessed at the following website: <u>http://leginfo.legislature.ca.gov/faces/codes.xhtml</u>.

Special districts required by law to calculate their appropriations limit must present the calculation as part of their annual audit. Any questions special districts have on this requirement should be directed to their county, district legal counsel, or the law itself. No state agency reviews the local appropriations limits.

### Population Certification

The population certification program applies only to cities and counties. Revenue and Taxation Code section 11005.6 mandates Finance to automatically certify any population estimate that exceeds the current certified population with the State Controller's Office. **Finance will certify the higher estimate to the State Controller by June 1, 2016**.

Please Note: Prior year's city population estimates may be revised.

If you have any questions regarding this data, please contact the Demographic Research Unit at (916) 323-4086.

AMY COSTA Chief Deputy Director

### Attachment A

A. **Price Factor**: Article XIII B specifies that local jurisdictions select their cost of living factor to compute their appropriation limit by a vote of their governing body. The cost of living factor provided here is per capita personal income. If the percentage change in per capita personal income is selected, the percentage change to be used in setting the fiscal year 2016-17 appropriation limit is:

Per Capita Personal Income					
Fiscal Year (FY)	Percentage change over prior year				
2016-17	5.37				

B. Following is an example using sample population change and the change in California per capita personal income as growth factors in computing a 2016-17 appropriation limit.

### 2016-17:

Per Capita Cost of Living Change = 5.37 percent Population Change = 0.90 percent

Per Capita Cost of Living converted to a ratio:	$\frac{5.37 + 100}{100} = 1.0537$
Population converted to a ratio:	$\frac{0.90 + 100}{100} = 1.0090$
Calculation of factor for FY 2016-17:	1.0537 x 1.0090 = 1.0632

### **RESOLUTION 2018-09**

# RESOLUTION OF THE BOARD OF DIRECTORS OF THE MONTECITO FIRE PROTECTION DISTRICT ESTABLISHING APPROPRIATION LIMITS UNDER ARTICLE XIIIB OF THE STATE CONSTITUTION OF THE STATE OF CALIFORNIA

WHEREAS, Section 7910 of the Government Code, which became effective on January 1, 1981, requires the governing body of each local jurisdiction to establish by Resolution its appropriation limit for the following fiscal year pursuant to Article XIII B of the California State Constitution at a regularly scheduled or noticed special meeting; and

WHEREAS, at least fifteen (15) days prior to this date, documentation of the appropriation limit was available for public inspection in the office of the District; and

WHEREAS, the District must annually select price and population factors that may be used by the District in setting their appropriation limit and therefore elects for FY 2016-17 to use the change in California in California Per Capita Personal Income of 1.0537 and the change in the County Unincorporated Area Population of 1.0102; and

WHEREAS, the District reviewed its past calculations since it had not considered all the calculation options available and allowable to the District in prior years, due to the passage of proposition 111 by the electorate, effective July 1, 1990; and

WHEREAS, the appropriations limit procedures for California Counties dated November 1990 provides that omissions need not be corrected retroactively for past fiscal years, since spending in those years is complete, and it is unnecessary to recompute each past year's reports. However, the cumulative effect of past recalculations must be factored for current and future appropriation limit calculations; and

WHEREAS, the District is retroactively setting the appropriation limit for past years, and for fiscal years 1992-93, 1998-99, 2002-03, 2003-04, 2009-10, 2010-11, 2011-12, 2012-13, 2014-15 selects the greater of the percent change in assessed value due to non-residential new construction vs. the California per capita personal income; and for fiscal years 1993-94, 1995-96, 1997-98, 1998-99, 1999-00, 2000-01, 2006-07 selects the greater of the unincorporated area population change within the County vs. the County population change. The calculation adjustments result in an appropriation limit increase of \$8,257,891 through FY 2015-16 to \$10,386,816 and an increase in the appropriation limit in FY 16-17 by a factor of 1.06445 or \$669,407 to \$11,056,223.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Montecito Fire Protection District that the Board elects for FY 2016-17 to use the change in California Per Capita Personal Income of 1.0537 and the change in the County unincorporated area population of 1.0102. The factors increase the appropriation limit by a factor of 1.06445 and sets the appropriation limit for Fiscal Year 2016-17 at \$11,056,223 before application of a voter approved appropriations limit override.

PASSED AND ADOPTED by the Board of Directors of the Montecito Fire Protection District this 22<sup>nd</sup> day of January, 2018, by the following vote:

WHEREAS, the Montecito Fire Protection District ("Fire District") is a fire protection district duly organized and existing pursuant to the Fire Protection District Law of 1987 codified in Health & Safety Code section 13800 et seq.; and

WHEREAS, the purpose of the Fire District is to, among other things, provide (i) fire protection services, (ii) rescue services, (iii) emergency medical service; (iv) hazardous material emergency response services, (v) ambulance services, and (vi) any other services relating to the protection of lives and property within the jurisdiction of the Fire District; and

WHEREAS, during December 2017 and January 2018, the jurisdiction of the Fire District, among other areas, was subject to federal emergency declarations due to fires and floods; and

WHEREAS, in response to these emergencies the Fire District received and accepted donations to assist the Fire District in responding to these emergencies.

NOW, THEREFORE, the Board of Directors of the Montecito Fire Protection District does hereby resolve as follows:

- 1. That the Board hereby ratifies and approves the Fire Chief's acceptance of the following donations during the federal declared emergency:
  - a. \$95,300 in cash donations from various anonymous donors.
  - b. Honda Pioneer 1000 ATV valued at \$14,000 from Direct Relief.
  - c. Headlamps, light sticks, strobes and duffels (value unknown) from Direct Relief.
  - d. Work gloves (value unknown) from Home Depot.
  - e. Rubber boots and gloves (value unknown) from Ace Hardware
- 2. The Board herby further directs that the Fire Chief or designee provide each donor with a donation letter as required under the Internal Revenue Code recognizing the value and purpose of the donation and to further express the Fire District's sincere gratitude and appreciation for the generous and important donation provided by each donor.

PASSED AND ADOPTED, by the Board of Directors the Montecito Fire Protection District this 22nd day of January 2018, by the following vote, to wit:

AYES: NAYS: ABSTAIN: ABSENT:

Peter van Duinwyk, President

Fire Chief Montecito Fire Protection District 595 San Ysidro Rd, Montecito, CA 93108

Dear Fire Chief,

The purpose of this letter is to take the time to thank you from the bottom of my heart for fighting the fires here in Sonoma county, I greatly appreciate the tireless hours and time spent on our behalf. My family and I were greatly affected by the fires; like many others. I wasn't able to get a name of a firefighter who helped fight the fires, so it would be great if you could share this letter with them.

I was evacuated from my home at 2 o'clock in the morning; we had approximately 15 minutes to get out. The fire was 2 blocks from my house in Coffey Park when we finally left our home. We sought refuge at a family friend's home in Sebastopol, California; as the fires were so widespread, we could only head West from our house. By early morning we learned my Grandma's home had burned down. It was not only her home, but all of our home. I had lived there for 3 years, and my mom grew up there. The home had been in our family for 35 years in the Foot Hills of Rincon Valley. It was our safe place. Eventually the entire family; grandparents, uncles, cousins etc. met up at a hotel in Concord; where we stayed for 5 days...all believing our homes were gone. When we were finally able to return, we discovered our home was still standing. I did not understand the full magnitude until I saw it with my own eyes. I immediately thought of all the first responders, especially the firefighters. They too had lost their homes; wanted to hug their families, but instead worked tirelessly to save my home, the cities' homes.

This event was devastating, but the way everyone came together was beautiful. Everyone wanted to help. My mom's friend had brought buckets and buckets of necessities when I was trapped in a hotel in Concord. So many people had opened their homes to my family and had given so much...it was beautiful.

Sincerely,

Hope prov

Dear Chief Hickman,

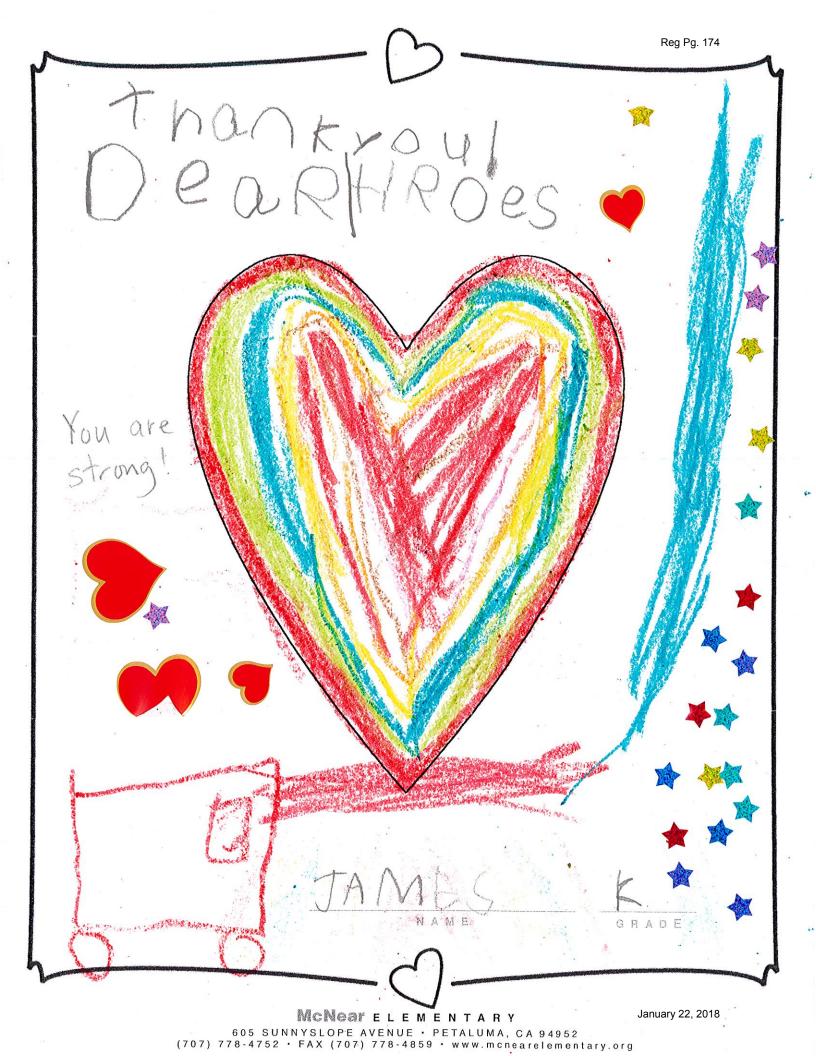

On behalf of Santa Barbara County Search and Rescue, I would like to take this opportunity to thank you and your Department for being so hospitable this afternoon. Your personnel demonstrated their professionalism and willingness to help. They welcomed us into your station and allowed us to stage until we resumed our evacuations for the Thomas Fire.

Additionally, Sam and Jerry took time to educate me on the rolls and responsibilities of your "Auxiliary Unit" and answered all the questions I had.

Respectfully,

## The Uncontainable Thomas Fire - Contained by Valiant Firefighters

A small fire started Monday Dec. 4th and swept into two counties, 281,620 acres plus and is, thanks to over 8000 firefighter, air support, ground support and many agencies working together, now 65% contained on Friday, December 22. There is more to do with a containment date of Jan. 7. 78% Saturday 12/23. 86% Sunday. Christmas almost 90%

How can thank you be enough for the firefighting that was done in steep canyons with capricious winds gusting up to 65 mph at times, standing firm on perimeters, at individual homes, see fire walls lifted up by the wind and dropped into areas behind you,

So many evacuated, the air quality soared in the danger area, people received and wore masks, so many helped others in need, temporary shelters for them. Some left the area going north to Buellton and Solvang and elsewhere.

There were groups of fire trucks and command cars at motels, side by side, all backed into spaces for a quick exit after as much sleep as possible. On the freeway here were groups of fire vehicles headed back into the fire zone. On the internet there were photos of firemen sound asleep on the ground.

We who watched the news in horror as the flames soared also were praying for the winds to die down and for rain. All were thankful for the days of low winds.

We sat comfortably as valiant fire fighters climbed steep hills, handled water and retardant lines, we saw gallon upon gallon of water and retardant dropped onto wherever it was needed. There was so much we did not see or could comprehend, done by so many for so long and successfully.

So many different reports were coming in plus live broadcasts to help us understand, as much as possible, what was happening.

Firemen checked into motels reeking of fire and with fine, black soot on their arms. They were heading for well deserved sleep.

Two fire fighters were from Monterey and Marin, which was a tiny representation of all those who drove their trucks and cars from many states.

Fire maps gave us an idea of just how huge the fire was, how many miles of perimeter were on fire.

Points of hope, three stockings hung on the fireplace of a home that was burned to the ground and animals rescued.

The procession of vehicles escorting Cory Iverson's body back to San Diego, firefighters at attention and saluting is passing.

The announcement, Thursday 12/21, for evacuees to return to their homes and pick up pets sheltered. Those who had kept necessities of life in their cars when they evacuated could unpack their cars. That in itself triggered thoughts and emotions of the fire.

Ash on the ground that moved in the wind and covered cars could now be gently removed so as not to have more move into the air.

The announcement that some firefighters could go home and thanks for those who came in to replace them.

Blue skies where there were days of light chocolate skies that rained down ash and soot.

It is not over but the worse is past, thanks to all. You stood in the way of harm so that our homes would be spared.

My salute is all you and to all of the many others who made containment possible.

God bless you. May your Christmas and thereafter be filled with joy and peace.

Maeve,

You've been in our thoughts through this Holiday Season. We cannot thank you enough for your efforts and diligence helping to prepare our neighborhood for a wildfire. We are tremendously greatful to still have a home. Without your expertise and the amazing work of all of the Firefighters, the Thomas fire outcome would have certainly been much different.

Fire Chief Chip Hickman Montecito Fire Protection District 595 San Ysidro Road Santa Barbara, California 93108 CHIP

Dear Fire Chief Hickman,

I want to personally thank you for your assistance and superb communication during the Thomas Fire.

I recognize the difficulties you and the other Fire Chiefs were faced with in fighting the Thomas Fire, the largest in California history. Your combined extraordinary efforts to coordinate the actions of almost 9,000 firefighters, 1,000 fire engines, two fire camps and a host of aircraft and support systems were successful and are greatly appreciated.

The Thomas Fire is the 12th major wildland fire I have worked. During the many years in my career, I have never seen such effective and informative internal and external communication as I saw during the Thomas Fire.

Thank you for your leadership, dedication and skill in helping protect the people of Santa Barbara County. It was an honor for the Santa Barbara County Sheriff's Office to join with your agency as part of this remarkable public safety effort.

Sincerely.

BILL BROWN Sheriff – Coroner

We want to thank you for all your hard work. You were amazing and your hard work has been greatly appreciated. We apologize these are being sent out months after the fire, but we made a card for every 1<sup>st</sup> Responder that aided in the fires here in Sonoma County and that took us a while. We wish you the best of holidays. Thank you for everything you do for every community you touch. \*Windsor Creek Extended Child Care\*
