Subject: Mello-Ross (or)
abandonment

Dear Chief Chit Hickman,

I was surprised to hear about this road thing lifting its ugly head again. As I informed Senator Strickland: If the state deprives a person of his property, it violates the Supreme rule of the land; namely, the 14th Amendment of the U.S. Constitution.

In other words, the Mello-Ross thing would make it literally impossible to stay on one's property due to the heavy cost burden to repay for the road. Besides the road in question is a private road and none of us need to pay anything for alteration unless we want to. When the private road was built, it would have been the county calling the shots. Nothing was done involving our road was fine.

I really feel terrible that I believed Mr. Venerable had the nerve to deny my living on my own property until the road is widened. I let down my fellow Vietnam comrades by not defending the constitution. It's hard to believe such people exist thinking they can misuse their "authority" to create living hell for their fellow man and think nothing of it. Amazing!

Angry, because of the constitution knowledge and moved in, I told the Fire Marshall no need to sign me off, nor anyone for that matter.

Let's get rid of that Mello-Ross thing.

Sincerely,
Gary

WHEREAS, CSFPD desires to hire MFPD to perform certain dispatch services specified herein; and

WHEREAS, MFPD represents that MFPD and/or MFPD's personnel have the qualifications and experience to properly perform such services:

NOW, THEREFORE, CSFPD and MFPD hereby agree as follows:

1. Scope of Services

MFPD shall furnish CSFPD with emergency dispatch services as more particularly set forth in **Exhibit A** attached hereto and incorporated by this reference in full herein.

2. Standard of Performance

a. Once received MFPD agrees to process and transmit alarms to CSFD within a 70 second time frame 90% of the time.

b. MFPD and CSFPD shall establish an Emergency Dispatch Oversight Committee consisting of one (1) Chief Officer representative from each agency and the MFPD Communications Coordinator. The committee shall be tasked with assuring that both agencies are receiving equitable and required service. If a dispute occurs that cannot be resolved by this oversight committee, the dispute shall be resolved in accordance with dispute resolution procedures set out in Paragraph 4 of Exhibit A. The oversight committee shall meet at least once every quarter to formally discuss operational issues and to conduct a dispatcher continuous quality improvement review.

c. In situations where service received or given has caused conflicts with CSFPD and MFPD employees, the issue shall be reported only to the members of the Emergency Dispatch Oversight Committee.

3. Nonexclusive Services

This Agreement shall not be interpreted to prevent or preclude MFPD from rendering any services for MFPD's own account or to any other person or entity as MFPD in its sole discretion shall determine. MFPD agrees that performing such services will not materially interfere with services to be performed for the CSFPD.

4. Persons in Charge

a. MFPD hereby designates its Fire Chief ("MFPD Fire Chief") as its principal-in-charge and person responsible for necessary coordination with CSFPD.

b. CSFPD hereby designates its Fire Chief ("CSFPD Fire Chief") as its principal-in-charge and person responsible for necessary coordination with MFPD.

5. CSFPD's Responsibility

CSFPD shall cooperate with MFPD as may be reasonably necessary for MFPD to perform its services. CSFPD Fire Chief agrees to provide direction to MFPD as requested regarding particular project requirements.

6. Term of Agreement

a. Initial Term. Unless otherwise terminated as provided for herein, this Agreement shall begin on October 1, 2013, and shall expire upon September 30, 2017 ('Initial Term').

b. Extended Term. The Initial Term of this Agreement may be extended for an additional one year period beginning October 1, 2017. In order to exercise the right to extend the Initial Term for an additional one year period, CSFPD must provide MFPD with written notice of CSFPD's intent to extend the Initial Term of this Agreement on or before March 31, 2017.

8. Compensation

a. CSFPD agrees to pay MFPD for services provided under this Agreement in accordance with the terms set forth in **Exhibit B** attached hereto and incorporated by this reference in full herein.

b. The acceptance by MFPD of the final payment made under this Agreement shall constitute a release of CSFPD from all claims and liabilities for compensation to MFPD for anything completed, finished or relating to MFPD's services.

c. MFPD agrees that payment by CSFPD shall not constitute nor be deemed a release of the responsibility and liability of MFPD or its employees, subcontractors, agents and subconsultants for the accuracy and competency of the information provided and/or services performed hereunder, nor shall such payment be deemed to be an assumption of responsibility or liability by CSFPD for any defect or error in the services performed by MFPD, its employees, subcontractors, agents and subconsultants.

9. Non-Appropriation of Funds.

Payments to be made to MFPD by CSFPD for services performed within the current fiscal year are within the current fiscal budget and within an available, unexhausted and

In the event CSFPD does not appropriate sufficient funds for payment of MFPD's services beyond the current fiscal year, this Agreement shall cover payment for MFPD's services only up to the conclusion of the last fiscal year in which CSFPD appropriates sufficient funds and shall automatically terminate at the conclusion of such fiscal year. CSFPD shall exercise good faith efforts to appropriate sufficient funds each year for payment of MFPD's services.

c. Any substantive modification of the documents and materials by CSFPD staff or any use of the completed documents and materials for other CSFPD projects, or any use of uncompleted documents and materials, without the written consent of MFPD, shall be at CSFPD's sole risk and without liability or legal exposure to MFPD. CSFPD agrees to indemnify, defend and hold MFPD harmless from all damages, claims, expenses (including attorneys' fees) and losses arising out of any reuse of the documents and materials for purposes other than those described in this Agreement, unless MFPD consents in writing to such reuse.

11. Indemnity

MFPD agrees to indemnify, hold harmless and defend CSFPD, its Governing Board, and each member thereof, and every officer, employee, representative or agent of CSFPD, from any and all liability, claims, demands, actions, damages (whether in contract or tort, including personal injury, death at any time, or property damage), costs and financial loss, including all costs and expenses and fees of litigation or arbitration, that arise directly or indirectly from any acts or omissions related to this Agreement performed by MFPD or its agents, employees, subconsultants, subcontractors, consultant and other persons acting on MFPD's behalf. This agreement to indemnify, hold harmless and defend shall apply whether such acts or omissions are the product of active negligence, passive negligence, or acts for which MFPD or its agents, employees, subconsultants, subcontractors, consultants and other persons acting on MFPD's behalf would be held strictly liable, but shall not apply to the extent that such liability, claims, demands, actions, damages, costs, financial loss, expenses and/or fees are attributable to the acts or omissions of CSFPD or its agents, employees, subconsultants, subcontractors, consultants or other persons acting on CSFPD's behalf.

REGULAR MEETING OF THE BOARD OF DIRECTORS
MONTECITO FIRE PROTECTION DISTRICT

Held at Fire District Headquarters, 595 San Ysidro Road, August 19, 2013 at 3:00 p.m.

The meeting was called to order by Director Venable 3:00 p.m.

Present: Director Venable, Director Keller, Director Powell, and Director Sinser. Director Jensen was absent. Chief Hickman and District Counsel M. Manion were also present.

- 1. Public comment: Any person may address the Board at this time on any non-agenda matter that is within the subject matter jurisdiction of the Montecito Fire Protection District. (30 minutes total time is allotted for this discussion.)**

There was no public comment.

- 2. Provide direction to District staff regarding the Environmental Impact Report for the Station 3 Site Acquisition and Construction Project located on East Valley Road on a portion of APN 155-070-008.**

Director Sinser removed himself from the dais.

Chief Hickman reported that he made contact with AMEC and Price, Postel and Parma (PPP) to determine what they are willing to do to address the Environmental Impact Report (EIR) deficiencies determined in the lawsuit.

Dan Gira of AMEC stated that his firm was willing to provide the information necessary to address the deficiencies identified by Judge Anderle, as well as reproduce and redistribute the new EIR at no cost to the District. Mr. Manion of PPP added that they are willing to review the new EIR at no cost to the District as well.

Public Comment:

Bob Hazard asked if the impacts of the Highway 101 construction to traffic will be addressed in the new EIR. Mr. Gira stated any updated information gathered on response times could be included in the new EIR.

Director Sinser stated that the sequence of completing the Standards of Cover study and the revisions to the EIR should be considered.

Joe Cole also felt the Board should focus on the studies first, and consider why the EIR wasn't fixed when he pointed out the issues last January, or when the Montecito Agricultural Foundation filed their petition. He suggested that the Board "fulfill their duty of inquiry" on these issues.

Sally Jordan stated that she and many others would like to see the EIR move forward immediately and simultaneously as the proposed studies are pursued.

Sylvia Easton stated she supports moving forward with the EIR.

The Board reviewed the options offered by AMEC and PPP, including the possibility of postponing the revisions to the EIR until the studies are completed. Mr. Gira discussed the issues relating to delaying the revisions. He added that the offer to revise the EIR did not have a "hard and fast" deadline, but AMEC would prefer that they move forward sooner than later.

After additional discussion, Director Keller made a motion to table that this topic for consideration at the next meeting so that Director Jensen can participate in the decision and more information may be available relating to the proposed Standards of Cover Study. The motion was seconded by Director Powell and passed unanimously.

3. Fire Chief's report.

(1) Fuel moistures at critical levels; (2) August 21 Montecito Planning Commission presentation; (3) upcoming interviews for Standards of Cover RFQ; (3) July 17 "Chat with the Chief"; (4) two employees on fire assignment with Los Padres Team 7; (5) final budget planning; (6) hiring process for paramedics; (7) recent meeting with broker of record; and (8) review of July false alarm calls.

The Board asked to have the Outreach Committee research educating the community on false alarm responses, and asked that the Personnel Committee agendize researching methods to encourage diversity in the workplace.

4. Board of Director's report.

Director Sinsler reported that he contacted the Sanitary District and found that they are not as dependent on the county for their financial support, such as accounting, payroll, and auditing. He plans to meet with other Districts to determine how they do business as well.

Director Powell reported that he was invited to attend the Montecito Planning Commission Disaster Preparedness presentation.

The Board took no action.

5. Report from the Strategic Planning Committee (Copy of Agenda for Strategic Planning Committee Meeting Attached).

Director Powell reported that the Strategic Planning Committed had planned to draft a Request for Proposal (RFP) for enhanced Standards of Cover Study with an enhanced Risk Assessment, but opted to delay the issuance a RFP until after the firms that submitted their qualifications participate in an interview process.

The Board took no action.

6. Report from Director Powell regarding research on District's policies on Tea Fire Rebuilds.

Director Powell reported that the residents on Upper Hyde Road have completed a draft engineering document which will be submitted to the District for review. They are still trying to decide whether or not they will need the Community Facilities District to fund the project.

Public Comment:

Ivana Noel reviewed the funding issues she is currently dealing with and asked the District to issue a letter to the county acknowledging the delays that have impacted the building process so that she may be able to get an extension on her permit.

Ms. Noel's attorney reviewed the situation and stated that Ms. Noel's SBA loan requires that it take first order on title which the Community Facilities District does not allow for.

Mr. Manion stated that an individual property owner cannot opt out of the Mello-Roos; the only way to eliminate the recorded lien would be to dissolve the Community Facilities District.

Roger Collis advised that he will ask the home owners to indicate (in writing) what their position is on the Community Facilities District, and ask that they cc: Director Powell, Director Venable, and the Fire Chief with their responses.

Chief Hickman asked Ms. Noel to email him with the information she needs included for a letter to the county.

The Board took no action.

The Board took a recess at 4:45 pm and returned at 4:55 pm.

7. Correspondence regarding pending litigation between Montecito Water District et al. and Price, Postel & Parma et al.

Chief Hickman reviewed the background of the letter provided by PPP's counsel, Robie & Matthai.

The Board discussed the original request for this information.

The Board took no action.

8. Review process of rescheduling Board meetings.

Director Sinsler advised that he was concerned with the large number of schedule changes and feels that schedule changes should be kept to a minimum. If the Fire Chief and staff are unavailable, others can fill in for them.

Public Comment:

Ms. Easton stated that the Board is dealing with many issues, and suggested that they consider reducing the Board and Committee Meeting work-load on staff so that they can do other aspects of their jobs.

Chief Hickman reviewed the challenges of holding meetings when he and Geri Ventura are unavailable to prepare for and attend meetings.

The Board took no action.

9. Report from the Fire Chief on Carpinteria Fire District's costs to research Price Postel & Parma's legal services to the Fire District relating to Robert Ornstein's letter dated 2/17/13 and provide direction.

Chief Hickman reported that he contacted the firm used by Carpinteria-Summerland Fire Protection District (CSFD) to respond to Mr. Ornstein's requests. He reviewed the differences in circumstances and advised that their firm felt a similar audit, or review of PPP's services would cost approximately \$50,000. CSFD's response to Mr. Ornstein's letter cost approximately \$1,500 because it required minimal research; this is largely in part because CSFD has not had the same amount of interaction and necessity for legal counsel as our District has had in the past several years.

Director Keller stated that she did not feel they requested an audit, but instead were concerned with any potential conflicts that may arise if PPP represents the District and other firms or agencies that also contract with them for services.

Mr. Cole reviewed the Board's duty of inquiry and potential conflicts of interest.

Mr. Hazard asked what the Water District's allegations are against PPP.

Director Powell suggested that once a decision is reached on the litigation, the Board can revisit this issue.

The Board appointed Director Keller to read through the litigation documents available to the public and give a report back to the Board on her findings at a future meeting.

10. Provide direction on consideration of, and process for agendaing issues brought to the Board from the public.

The Board discussed the process for adding agenda items to Board meetings. The Board President has the discretion to set the agenda with the Fire Chief and Staff. Directors can make additions based on suggestions made by the public, with approval of the President or with consensus of the Board.

The Board took no action.

11. Approval of District warrants and claims.

After an explanation of income from employee rental units, and payments made to LAFCO, CalPERS, overtime, ADP, LN Curtis, FAIRA liability insurance, shift calendars, South Coast Emergency Vehicles Repair, Streamline Office Solutions, Ron Turley, overtime, and PPP, the warrants and claims for July were unanimously approved on a motion made by Director Sinsler, seconded by Director Powell.

Chief Hickman reviewed the costs associated with the new high fire season staffing model.

12. Consider acceptance of donation of beds by "Sit & Sleep".

Chief Hickman reviewed the offer from Sit & Sleep to donate new beds for both stations.

On a motion made by Director Powell, seconded by Director Keller, the Board unanimously accepted the donation of beds, with the stipulation that Sit & Sleep will not use the District's name or filmed footage of the donation for any subsequent marketing without the District's express written permission.

13. Approval of Resolution 2013 –13 regarding the rules and regulations for the purchase of supplies and equipment.

Chief Hickman and Director Sinser reviewed the process that brought the proposed changes to this resolution.

Director Powell made a motion to increase the limits in the resolution from \$10,000 to \$15,000, and approve Resolution 2013 –13 regarding the rules and regulations for the purchase of supplies and equipment as amended. The motion was seconded by Director Keller.

On a motion made by Director Keller , seconded by Director Powell, the minutes of the July 15, 2013 regular meeting were unanimously approved as amended.

Smoke or odor removal

13-0001978 08/06/2013 19:46:13 1853 San Leandro LN

E91, E92, ME61 and MED91 responded to a possible structure fire - smoke in the kitchen behind the stove. Upon arrival E91 staged all incoming apparatus to San Leandro and met with the resident. A small heat signature was located behind the stove by the thermal imager and the attic was opened to check for extension. Light smoke was seen in the attic, and the structure assignment was held in staging.

915a assumed command and managed logistics for the incident while E91 crew continued investigation of the attic. The vent pipe from the stove hood system to the roof was located. It was found to be installed improperly, allowing smoke and waste products from cooking to enter the attic space. There appeared to be no evidence of fire extension into the attic space by thermal or physical examination by two firefighters.

The stove was removed from the wall and the gas valve was shut off. A small pile of ash was seen on the floor behind the range. The wall behind the stove was examined by thermal imagery and appeared normal. The back of the stove was not discolored and appeared in near new condition. The airgap backstop to the range was removed and found to have a small quantity of an oily ash residue similar to that on the floor. The resident observed the ash and noted it matched the texture of one of their potholders and showed it to C91. Electrical systems appeared normal and no other source of smoke was found. All apparatus in staging was released, B915a dissolved command and left investigation to E91C

The conclusion was that a potholder was trapped in the airgap space behind the stove and smoldered, producing the smoke. Once the resident turned on the vent, smoke entered the attic by the unsealed vent pipe. E91C showed the results of the investigation to the residents and recommended that a licensed contractor inspect and reinstall the stove and its attic components properly. E91 then returned to quarters.

The stove was removed from the structure, carried down stairs and opened up for examination. A wire leading to what appeared to be the ignition bar inside the oven was still lightly smoking from around the penetration to the insulation.

ME62 and SQ91 was released and the stove was moved onto an unused portion of the non-combustible walkway nearby. The residents were advised to call back if they were concerned about the stove reigniting or if oven started to smoke. E91 crew reassessed the walls with thermal imagery and restored power to the structure. Information was

Dear Chief Hickman,

We at CAL FIRE were proud to be a part of the memorial for Sean Misner. Thank you for allowing us to participate in honoring him. Your department should feel very proud of the way you honored Firefighter Misner and cared for his family. It is never an easy task, but the actions of your department clearly show the strength of the firefighting community.

I am pleased that we could be part of the effort in significantly reducing wildfire risk in your community during the past six months. We are excited about possible opportunities next year in assisting with future fuel reduction projects.

Please continue to update Chief Blue as your 2014 Project Proposals develop.

Sincerely,

Robert Lewin

Regional Public Safety Communications Center

August 30, 2013

Dear Leslie Muller,

On June 30th, 2013 our Communications Center, our Public Safety family and our Community was shaken by the sudden and tragic loss of nineteen of our local hotshots during the Yarnell Hill Fire. The loss was very personal to each of us and yet we know and understand that as a Regional Emergency Communications Center we are expected to continue our operations despite grieving for our fallen colleagues.

It was during this time that you, our fellow Dispatchers and friends stepped up and helped us understand how large the Public Safety Communications family really is. The offers of support, love and encouragement were unexpected to say the least; your outpouring of kindness was very humbling, heartwarming and truly, truly appreciated.

On July 9th, our fallen hotshots were honored during a tribute that was viewed around the world. Because of your unwavering insistence to assist us in our Communications Center that day, many of our staff members were able to attend the services to grieve the tremendous loss of our hotshots and support one another during this extremely difficult time. Your professionalism, genuine care and concern for my staff made a catastrophic event a little bit easier to face.

As the days and months since this tragedy pass, we all, each one of us, will remain indebted to the service you provided, hold your compassion dear in our hearts and always treasure the kindness you expressed.

Thanking you most graciously,

Lt. Amy Bonney & the PRCC Dispatch Team

Dear Montecito Fire Department,

I cannot begin to tell you the impact your overwhelming support has had on the Prescott Fire Department following the heartbreaking event on June 30. Losing nineteen of our fire department employees in one tragic incident was devastating enough, but at a time when our city was experiencing a significant number of community events, they would not have been easily managed without the assistance of your firefighters, police officers, and personnel.

As the needs in our community developed following the hours and then days after we lost our firefighters and the situation became so large it took on a life of its own, your agency responded quickly and without hesitation. The presence of the Montecito Fire Department, standing shoulder to shoulder with the Prescott Firefighters, provided comfort and support at a time when it was needed most. I cannot thank you enough for your assistance.

Following the memorial service on Tuesday, July 9, individual funerals took place the remainder of that week and into the weeks to come. Though it will take a significant amount of time to heal, Prescott can now move forward and continue to provide the quality public safety services it is known for throughout this region. Having been lifted up by our brothers and sisters of the Montecito Fire Department, we are stronger than ever.

Again, thank you and may God bless the Montecito Fire Department.

With appreciation,

Dan Fraijo

To all the fantastic folks at MTO !!

Thank you so much for coming to my assistance last Wednesday when, much to my surprise, I had a bit of an episode with my heart! Just about everyone in my family was as surprised as I and everyone was very pleased with your swift and professional action!

Thanks, also, for the lovely floral arrangement - way over and beyond the call of duty 😊

Lots of love to you all,
Jane
